

8. The Agile Leader

Overview

Even a small shift in direction can accelerate success. In this course, you will learn how to adopt a focused and flexible mindset; respond quickly with adaptive techniques; and empower others to reach the goal.

Learning Objectives

- recognize characteristics associated with an agile leadership style
- identify mindset shifts that overcome agility obstacles
- recognize actions that demonstrate steps in the cycle of balancing focus and agility
- identify skills most valuable to agile leadership
- identify actions that drive others to reach solutions
